

Hi, my name is Cristy Lewis and I am the Counselor at Pamlico Community College. I am located in the Student Services Division, a group that is dedicated to your success!

You may have already met me during your admission process. Maybe while completing your application or taking your placement tests to determine where you'll begin your educational journey. While I work with people who aren't quite yet students as they get connected to the college, I also serve students while they are enrolled at PCC and beyond through services such as:

- Academic and Career Planning
- Placement Testing
- Personal counseling and referral to outside resources to make your path easier
- Counseling for students that are planning to transfer to 4-year schools
- As well as career counseling

There are several tools that I'd like to talk about today that I think will make your college life at Pamlico Community College easier.

First, located on our website at [www.pamlicocc.edu](http://www.pamlicocc.edu) under the About PCC tab, is our college catalog. This is a wonderful resource that will tell you our policies, provide you with information about who to ask what, and help you navigate your way here on campus.

Second, WebAdvisor, also located on our website, will give you access to a review of your current unofficial transcript, as well as planning tools for meeting with your advisor when you are picking out classes.

Third, our website, Facebook site, and Campus Cruiser, are wonderful resources to help you stay connected regarding current events on campus and important dates.

As you can see, I serve as an information portal for both on-campus and distance education students. So no question is too big or too small for me. I hope that you will contact me as soon as you think you might have a question or issue. Sometimes little issues turn into bigger ones over time.

It's never too early to create a plan for success and my biggest goal at the end of the day is to make sure that the doors to your academic and career dreams are always open. My door is always open! End of document.
