

NCCCS Performance Measures Report 2024-2025

Pamlico Community College Performance Summary

The Performance Measures for Student Success Report is published by the North Carolina Community College System office annually. The annual performance report is based on data compiled during the previous year. Baseline levels are set two standard deviations below the system’s average index score, and excellence levels are set one standard deviation above the system’s average index score. The average band is within 0.5 standard deviations above or below the average index score.

In the 2025 report, Pamlico Community College exceeded the system’s average performance band in one measure. Two additional measures performed above the average band but did not reach the excellence threshold. One measure fell within the system average band, and three measures scored below the system-defined baseline.
